# IVAN WOODS

Schiavello and Ivan Woods have a long history. Our collaborative design process, which has evolved over many years, has yielded distinctive collections such as the Kayt and Toro collections.

Ivan enriches his designs' emotional qualities through fine detailing, influenced by a strong architectural sensibility and carefully considered geometry. The unique combination of individual and robust personalities in his products results in a unique outcome that has lent his products to a diverse range of scenarios.

Ivan grew up in Australia and studied interior architecture in Perth. Having designed interiors and products for over 30 years, he has created work for the Langham and Marriot hotels as well as international projects spanning the UK, US, Germany and Italy.

“Characterised by sculptured forms, Palomino’s soft sweeping lines are classic and refined.”  
Ivan Woods.

Palomino caters to the changing workplace and the growing trend for furniture that bridges the gap between the home and office.

Office environments and working philosophies will continue to diversify. The growing desire for agile working has seen a change in the attitude towards the office, as more and more people are seeking flexible working alternatives, often preferring to work from home on occasion. Transitional furniture will have a strong presence in the workplace as people seek new ways to create comfort and a sense of connection to the spaces they occupy daily.

A lounge chair at heart, Palomino creates inviting spaces and evokes a sense of comfort. At the office, Palomino is well suited to breakout areas, training rooms, meeting rooms and boardrooms. For the home, Palomino is a relaxed, calming addition to home offices, living and dining spaces.

Inspiring creativity while supporting our various requirements, Palomino features a diverse range of bases and upholstery finishes.

Palomino's range of base options and upholstery finishes presents versatility in function and personality, making it ideal for a variety of settings.

# ColourLab

Schiavello's innovative ColourLab brings a considered and cohesive palette of finishes to working and living spaces. Curated by Giulio Ridolfo and developed by Schiavello, the new palette beautifully balances colour, texture and layering across a variety of materials.
