

Focus

A symbol for Retreat

Focus is a curated selection of booths that provide a quiet refuge for a private conversation or to reflect.

schiaavello

Introducing Focus

Space to think

Today's offices provide fewer boundaries concerning when and where to work, and a lack of private areas is a shortcoming in activity-based workplaces. Workspace research indicates that users are dissatisfied with their privacy and would like more of it. Providing a place to retreat, Focus creates an ideal working space for concentration, even within high-traffic, openplan offices.

A silent investment

Intrusive noise can lead to poor concentration and fatigue and is a costly problem for businesses today. Research suggests that office workers lose over an hour of productivity per day due to uncontrolled interruptions. Focus forms a shield from the surrounding environment, providing privacy and creating a quiet retreat and shelter from visual and acoustic distractions.

Retreat to comfort

In a single day, a worker attends to different activities that need a varying degree of focus: thinking, writing, reading, creating, analysing, problem solving, to name a few. The planning flexibility of Focus helps organisations to optimise their real estate by delivering the right workspace in a highly efficient footprint. Available in a variety of intelligent configurations and soft finishes, Focus transforms under-utilised transitional spaces into desirable destinations.

Healthy mind, healthy body

Creating the right spaces for the task at hand can increase productivity through a physical change in the working environment. The ability to easily adapt from one task to another by creating a choice in working spaces can enhance a sense of psychological security. Designed to be good for your body and good for your brain, Krossi height adjustable tables bring sit/stand work surfaces to Focus.

Tools and support for project work

Empowering the user through freedom of choice, Focus units are customisable, making them an inviting space to work. Integrated power for video conferencing, a diverse set of accessories and a variety of finishes allow for a desirable experience.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste, Emissions) give us a simple way to think how our operations impact the environment.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello Head Office and manufacturing facilities are integral elements of the Schiavello Philosophy. They provide the opportunity to develop a rich tapestry of knowledge that ultimately informs the right solutions and tools for an organisation and its people.

1 – Retreat

—

Verb

To go away from a place or person in order to escape from fighting or danger, a move back by soldiers or an army, either because they have been defeated or in order to avoid fighting.

Noun

A private and safe place. A period of time used to study quietly, or to think carefully, away from normal activities and duties.
